

FormBoss

METAL GARDEN EDGING

What will you shape today?

Until now there has been very limited choice in garden edging.

The FormBoss metal garden edging system is a great new alternative with the strength that allows you to create any shape of garden path, edge raised bed, pebble garden or even steps.

75mm

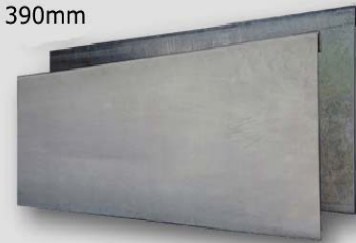

FormBoss comes in heights of 75, 100, 150, 185, 230, 290 and 390mm.

It is available in 1.6mm (5.5mm rounded top edge and 2.0 mm with a 6.5mm rounded top edge.

Also available in raw or galvanised finish

390mm

Smart connectors available in all sizes

Stakes are available in 200, 240, 300 and 400mm lengths

Your outdoor areas will come alive with-
FormBoss as it enhances your existing architectural features

FormBoss can be curved onsite by hand and foot down to a 500mm radius.

We also have a pre-curving service for a very reasonable price that allows you to curve down to a radius of 125mm.

Corners are easy to create by making a kink in the edging also by hand and foot.

Rolled sections available
rolled lip in or lip out

Create the shapes you want. The designs above were shaped by hand on site

Good discounts for trade and larger quantities

FormBoss advantages:
